FOOD

- SIM Golf has a delicious food menu and chef on hand for events
- Please see our current menu: www.simgolf.com/menu/
- For small and medium sized events we recommend shareable finger foods. An example menu for these sized events is the following: charcuterie boards, hummus plates, and a variety of wings, flatbread pizzas and tacos. However, any menu items can be made available for your group. The charcuterie and hummus plates are typically waiting for your guests when they arrive and then our kitchen brings out the hot items as they are ready. If your group is eating a lot, we will keep up. However, if they aren't eating very much our kitchen will slow down and you won't pay for a lot of uneaten food.
- For larger events we recommend buffet style format. An example buffet menu is a burger or taco bar and salad, with potentially an additional side item like wings or mac and cheese. Charcuterie and hummus plates are typically ready in addition when your guests arrive. The buffet menu is priced per person depending on menu items, please contact us for details.

REFRESHMENTS

- SIM Golf has a full-service bar with high-end spirits, craft beers and cocktails, and several wines to choose from.
- Please see our current menu: www.simgolf.com/com/
- We can serve your guests in any format you like. Examples include open bar, the drink ticket system, beer & wine only, or have guests pay for their own alcohol.
